Dear Mr Sugliani,

With regard to the below mentioned application, I do not appear to have received the signed declaration and assignment documents from you. Just in case they have been mislaid, I am forwarding them to you again and I would be very grateful if you could return them to me at the address as given below as soon as possible.

I thank you for your assistance in this matter.

With reference to the above International application which is currently being filed nationally in the USA, China and Europe, I would be very grateful if you could sign the attached declaration and assignment documents which are required for the national filing in the USA.

Please could you print these documents out single-sided as the US Patent Office will reject documents that are printed out double-sided. Also, the assignment document needs to be witnessed.

I thank you for your assistance in this matter and look forward to receiving the signed documents in the near future. If you have any queries regarding these documents please do not hesitate to contact me.

Dear Mr Rossi

**Re: US Patent Application Corresponding to PCT Application No. PCT/EP2004/050595 In  
The Name of Marconi Communications SpA  
Title: Counter-Pumped Distributed Raman Amplification In Wavelength Division Multiplex  
Optical Communications System  
Inventors: Simone SUGLIANI, Giovanni SACCHI, Fabrizio DI PASQUALE**

With reference to the above new US patent application, I would appreciate your assistance in acquiring the signature of inventor Simone Sugliani on a US Assignment and a Declaration form. My predecessor Paula Clarke has sent on several occasions all documents ready for signature direct to Mr Sugliani, but we have not yet received the signed documents back in this office. The other two inventors have signed the relevant forms, and these have been filed at the US Patent Office.

Can you please check with your Personnel/HR section that the address we have for this inventor is correct, and advise by return if it is not so that we can prepare new forms.

If the address is correct, can you please forward the documents on our behalf and explain to the inventor that we must have his signature on the forms as soon as possible. If we are unable to file these documents at the US Patent Office, we will have to prepare a Declaration indicating that the inventor is refusing to sign the forms.

If the Assignment document in particular is not filed at the US Patent Office, then the US Patent, when granted, will issue in the name of Ericsson and Simone Sugliani.

Please confirm receipt of this letter by return fax, or send an e:mail to 'kim.mixture@ericsson.com' (I only recently joined Ericsson, and do not yet have my own e:mail account).

Yours sincerely

Pamela Guess

Michele,

Further to the above case, please find attached new US Declaration and Assignment forms with Mr Sugliani's new address. Can you please, on our behalf, send the forms to Mr Sugliani and ask him to sign both forms, and return them to your office.

Although Paula Clarke sent the old forms to Mr Sugliani several times, we never had a reply from him. I wonder if perhaps he didn't understand the importance of these forms. He may feel happier about signing the forms if he receives them from your office, and maybe discuss it with you.

Many thanks for your help in this matter,

Pam Guess
